

Introducing Fusion Adhesion Promotor™ A Revolutionary Adhesion Promoter for Superior Surface Bonding!

Fusion Adhesion Promotor™ represents a groundbreaking development in the field of adhesion promotion. This advanced formulation has been meticulously engineered to optimize the adhesion process when applying Infinity Effects Products onto Ceramic Tiles or other compatible substrates. As a cutting-edge pre-primer, this exceptional product not only delivers outstanding cleaning properties but also significantly enhances the bonding capabilities of specifically chosen Infinity Effects coatings.

The application of Fusion Adhesion Promotor™ is a straightforward process. By lightly spraying the product onto the desired substrate and gently wiping it with a clean cloth, the surface is effectively prepared for the subsequent application of recommended Infinity Effects coatings. Once Fusion Adhesion Promotor™ has thoroughly dried, it creates an ideal foundation, facilitating direct bonding with the coatings. Extensive testing has confirmed compatibility with a wide range of substrates, including:

- ✓ Aluminium
- ✓ Stainless Steel
- ✓ Iron
- ✓ Plastics (ABS, UPVC, PVC)
- ✓ Ceramics
- ✓ Porcelain
- ✓ Glazed Ceramic Tiles
- ✓ Porcelain Tiles
- ✓ Infinity Effects MgO Board

For substrates not listed above, we strongly encourage you to contact Infinity Effects or their recommended representatives for guidance, as Fusion Adhesion Promotor™ may also demonstrate compatibility with unlisted substrates.

Whether for commercial or domestic applications, Fusion Adhesion Promotor™ ensures reliable and durable adhesion on various surfaces. It is important to note that certain substrates may require additional preparation prior to the application of Fusion. To ensure the systems integrity and prevent potential failures, we strongly recommend performing a test patch on the substrate using the recommended Infinity Effects over-coat Product before proceeding with extensive applications.

Discover the enhanced adhesion capabilities of Fusion Adhesion Promotor™. Experience the seamless bonding between this innovative product and Infinity Effects coatings as they adhere effortlessly to ceramic tiles and compatible substrates. Elevate your coating applications with the dependable performance of Fusion Adhesion Promotor™ today!

Order your Fusion Adhesion Promotor™ directly from Infinity Effects or through our global distribution agents. Please note that all Infinity Effects products are sold according to our Standard Conditions of Sale. While we aim to provide helpful advice, we can only guarantee results for uses explicitly confirmed in writing by Infinity Effects and the specified representative.
